

## PRESS RELEASE

**For Immediate Release  
February 5, 2007**

### **VELOCITIE awarded contract for ArcGIS Server Implementation and SAP Interoperability at Aquarion Water Company**

**Green Bay, Wisconsin – February 5, 2007** – VELOCITIE Integration, Inc. announced a contract awarded by Aquarion Water Company (AWC) to assist with several system implementations that will modernize its remaining IT systems. Aquarion has embarked on a project called “NextGen” that involves the implementation of SAP and the integration of SAP with the GIS via Impress for GIS. As part of this integration, VELOCITIE will provide GIS consulting services and ArcGIS Server based application development.

Bart Koenig, President of VELOCITIE, stated: “We look forward to extending our working relationship with the excellent staff at Aquarion by providing services to enhance the integration between SAP and Aquarion’s GIS.”

During the transition to ArcGIS Server and implementation of SAP and Impress for GIS, VELOCITIE will provide the following consulting services:

- ▶ Migrate the existing ArcIMS based web applications to the ArcGIS Server platform
- ▶ Use geocoding to establish service point and service line features in the GIS from Customer Information System records
- ▶ Develop several web-enabled ArcGIS Server functions
- ▶ Manage the SAP related function development and the ArcIMS application migration effort
- ▶ Configure the geodatabase to address GIS and SAP integration requirements
- ▶ Create enhanced ArcMap functions to facilitate the use of Impress for GIS

Howard Dunn, Vice President of Operations and Technology at Aquarion, states that NextGen is an incredible technological development that makes Aquarion more efficient. “Hiring VELOCITIE for such an exciting and crucial initiative, with all of its complexities, surpasses any other since Aquarion’s founding in 1857. We are confident that VELOCITIE will continue to assist Aquarion to enhance its efficiency and service delivery.”
