VELOCITIE to Deliver Cityworks Asset Management Solution for Green Bay Water Utility

GREEN BAY, WISCONSIN – Apr. 18, 2007– VELOCITIE Integration, Inc. announced today that Green Bay Water Utility (GBW) selected VELOCITIE to provide asset management system implementation services. VELOCITIE will implement the Cityworks® industry leading suite of asset maintenance management products for the Utility. VELOCITIE was chosen for its water utility experience and proven implementation methodology of Cityworks.

VELOCITIE's Cityworks implementation services for GBW will include:

- Requirements Gathering
- Cityworks Configuration and Installation for Water Distribution
- System Deployment, Documentation, Training, and Ongoing Support

Paul Pavlik, Distribution Manager commented, "We selected VELOCITIE for their knowledge of our Utility operations, and their experience with GIS and Cityworks asset management. We anticipate a high-level of service provided by VELOCITIE for this implementation of Cityworks that will help us to improve the management of our water distribution assets."

Bart Koenig, President of VELOCITIE, states, "Green Bay Water continues to realize solid return on its GIS investment. The Utility has already integrated GIS into its mobile work force and inspection activities, and with the implementation of Cityworks, they will leverage the GIS to enhance their work order, preventive maintenance and service request processes. I am pleased VELOCITIE has the opportunity to deliver a scalable and affordable solution that meets the Utility's objectives for improved asset maintenance."

About VELOCITIE
