

## PRESS RELEASE

**For Immediate Release**  
**October 30, 2007**

### **VELOCITIE and Azteca Systems Selected by Milwaukee County Department of Transportation and Public Works**

**Green Bay, Wisconsin – October 30, 2007** – Milwaukee County Department of Transportation and Public Works has selected VELOCITIE Integration, Inc. to provide Cityworks® implementation services. The County selected Azteca Systems' Cityworks product to track its maintenance and inspection of the sanitary sewer system. The project will be managed and supported by the Architecture, Engineering & Environmental Services, a division of DTPW which is responsible for providing architectural and environmental services, civil and airport engineering, construction management, and various support services including Geographic Information System and facilities assessment services.

VELOCITIE is providing the following implementation services in support of the project:

- Requirements gathering and data modeling for sanitary sewer assets
- Configuration and deployment of Cityworks for maintenance and inspections
- Creating a migration plan to support the migration of legacy asset data
- Training and documentation for administrators and end users

William Shaw, the County's GIS Manager, states, "The County looks forward to an affordable, easy-to-use system for our sanitary sewer asset management. Cityworks will enable the Public Works Department to improve its inspection process and facilitate preventive maintenance by creating a single source for work order management and inspection tracking of its sanitary sewer assets."

Bart Koenig, President of VELOCITIE, states, "Milwaukee County DTPW recognizes the financial benefits and process efficiencies it will realize by implementing Cityworks. I'm pleased that VELOCITIE has the opportunity to work with the County to enhance its maintenance, inspection and reporting activities."

#### **About VELOCITIE**

VELOCITIE Integration, Inc. provides enterprise and integrated GIS solutions for utilities, municipalities, and energy and telecommunication companies. The team at VELOCITIE brings over 250 years of combined experience in serving the GIS industry.
