VELOCITIE and Azteca Implement Cityworks Solution for Traverse City Light & Power

GREEN BAY, WISCONSIN – Aug. 29, 2007– VELOCITIE Integration, Inc. announced that Traverse City Light & Power has completed its Cityworks implementation for work order and inventory management. Traverse City Light & Power (TCL&P) is a community-owned, municipal utility located in Traverse City, Michigan. The electric utility provides electricity for nearly 11,000 residential, commercial and industrial customers in the Northwestern region of Michigan's Lower Peninsula. The utility maintains transmission, distribution, hydro-electric and wind facilities to deliver service to its customers.

VELOCITIE provided implementation and integration services for Azteca Systems' Cityworks solution to replace the legacy inventory system and integrate the City's financial and customer information system.

VELOCITIE's Cityworks implementation services for TCL&P included:

- Requirements Gathering and Business Process Definition
- Cityworks Configuration and Installation for the Distribution, Generation, Meter Reading and Administrative departments
- Development of an Interface between the City's Customer Information System and Cityworks
- Development of an Interface between the TCL&P's Material Inventory System and Cityworks
- Creation of reports, notably to satisfy TCL&P's year-end FERC accounting requirements
- System Deployment, Documentation, Training, and Ongoing Support

Steve Kerr, Senior Consultant with VELOCITIE, states, "By implementing Cityworks at Traverse City Light & Power they moved from a paper work management system and leveraged the investment the City had already made in its GIS. The City achieved real business results – including better communication among its work groups, better visibility into the work being performed and better tracking capabilities."

Jeremy Dunlap, Cityworks Project Manager for TCL&P, commented, "The implementation of Cityworks enables Traverse City Light & Power to improve its work processes, inventory management and cost control. We are extremely pleased with how VELOCITIE guided us through the process of redefining our business processes to utilize Cityworks most effectively, and we are very impressed with the quality of their implementation and support."

About VELOCITIE
